ESQUIM SA

QUALITY POLICY

The Management of ESQUIM SA considers the quality policy a priority part of our business management. It is focused on keeping the company in the market, expanding the range of products, as well as the sectors and territories where it has a presence. It is considered a priority in our management to satisfy the interests of our customers. In order to achieve higher levels in the quality of our activities, ESQUIM SA is committed to:

- **To enhance** the commitment to continuous improvement based on our results by measuring the performanceof our processes and services and establishing new improvement objectives, in order to be a competitive company in the market.
- **Manage** the company's activities as processes aimed at creating value for customers in accordance with their requirements.
- **Identify** the needs of specific market sectors in order to expand customer service, developing new products according to needs.
- **Involve** all staff, own and others, on management responsibility for health and safety issues.
- **Take care** of the environment, not only by reducing waste but also by avoiding generating it at source.
- **Have** the necessary resources to achieve the established objectives.
